Statement on West Irian

REF: [REDACTED] (IN 40031)

1. Transmitted under separate cover is the [REDACTED] statement on the above subject.

It was simply a restatement of [REDACTED] consistent position on the subject. There has been no statement on this matter since that time.

2. The investigation mentioned in the statement, [REDACTED]

was established in 1954 to inquire into and report on violations of academic freedom, particularly, but not exclusively, in the Bloc.

The entry of the commission into non-bloc areas and its reports thereon create greater acceptability in target [i.e., underdeveloped] areas for its adverse reports on conditions in bloc countries.

## COPY OF SPECIAL RESOLUTION XIII--C/REC

## WEST IRLAND

## FACTS:

1. In 1949 the Netherlands promised before the United Nations full sovereignty to those islands formerly known as the Dutch West Indies. In that same year the Round Table Conference at The Hague postponed the decision on the status of West Irlan, one of these islands, for a year. Further negotiations failed, and at present West Irlan is still a Dutch colonial possession.
2. Due to the colonial policy of the Netherlands, there are no institutions of higher learning or opportunities to obtain a secondary education.
3. In 1959 a representative of the Research Investigation Committee of the International Student Congress was refused entrance into West Irlan to study the situation.

## PRINCIPLE:

In accordance with the UNIA Basic Policy Declaration condemning colonialism as it affects students, DEISA notes that the Dutch government by not setting up educational facilities is preventing the West Irlan people from pursuing their own educational interests.

## RECOMMENDATION:

The 13th National Student Congress reaffirms the Special Resolution on West Irlan passed by the 12th National Student Congress.

## MANIFEST:

1. The 13th National Student Congress mandates the International Affairs Vice President to circulate to all member schools the report on West Irlan of the Research and Information Committee of the 13th National Student Congress.
2. The 13th National Student Congress mandates the International Affairs Vice President to send this resolution to the Dutch National Union of Students, the Indonesian National Union of Students, and the representatives to the United Nations of both countries.

From the Declaration of Policy, United States National Student Association 13th National Student Congress, August - September 1960.

## COPY OF RESOLUTIONS OF WEST IRIAN

"Considering the lack of adequate facilities for higher education in West Irian and expressing confidence in the resolution passed by the Eighth International Student Conference on West Irian the 12th National Student Congress directs the International Affairs Vice President to publicize this situation to American students by providing the necessary background materials to gain a perspective of the situation."

From Appendix "Resolutions Passed by the 12th National Student Congress":  
12th Annual National Student Congress Working Forum, August - September 1964.
